

Saying YES to Life

A YEAR-LONG CORE ENERGETICS GROUP WITH JOANN LOVASCIO

This year-long program is an invitation to come together as a healing collective. We will honor the territory of our wounding as sacred. We will open together through the complex archeology and hidden capacities that lie buried in the history of our bodies. You'll have the opportunity to move your energy, challenge distortions, and take the risk to contact and express missing dimensions of your being and long-hidden deep feelings. You will grow simply by bearing witness to the pain, vulnerability, courage, and reinvigoration of other beings. It's a chance to step in and share yourself, to lead and guide others, and to be changed by the group experience so you can open to a new level of the fullness and intelligence of your body and life-energy.

Paradoxically this deep uniquely personal work expands us from a personal focus on ourselves into deeper presence in the human collective. Human bodies hold our stories—the histories of all our ancestors. Whatever is in our actual experience—pain, joy, fear, grief, longing, resentment, desire, rage—it is all here to be felt and shared, honored and witnessed. Sharing this process allows us to stand in the terra firma of our embodied experience. From there we continue to ground and open to our capacity to live life fully.

This work empowers people to become leaders. An effective leader is able to be authentically present to the full range of human diversity and complexity. As embodied human adults we can truly encounter other people on a level playing field—with authority, confidence, playfulness, and empathy. This work is directed at facilitating such leadership capacities.
